Assessment - OCR

Programming is a core skill which continues to be a focal point of our updated GCSE. Candidates are required to develop programming skills as part of the GCSE. These skills will reinforce and support access to the content in the GCSE written examinations. Learning can be delivered through a creative blend of practical and

Computing Qualifications
Summary Brochure

Download File PDF Ocr Computing Gcse Practical Tasks

OCR is a leading UK awarding body, providing qualifications for learners of all ages at school, college, in work or through part-time learning programmes.

Assessment - OCR

The OCR GCSE in Computing can be carried out using any (imperative) language. The fact this course is in Python isn't to say it is any better than the many alternatives out there but it is certainly a good language to teach with. Python was designed specifically to be easy to understand and quick to build programs.

Teachers will bring out the key features of chosen styles and will give students experience of incorporating these features. Teachers and learners should remember that the heart of a good composition will still be the 'core criteria', i.e a musical composition which manipulates ideas and using a good range of compositional techniques.
